Inspiration Lake

Dedicated and officially opened in 2008, the new lake is over 200 acres in size.

Shoreline

The shoreline is complete with a beautiful sandy beach for everyone to relax and enjoy. The designed walking paths along the shore line provide time for exercise and contemplation.

Dock and Blob Tower

The dock and blob tower are in place and are great additions to the appearance of the shoreline. Many have been able to enjoy wake boarding, water skiing and blobbing, as well as viewing their friends from the shore.

Bridge

The bridge over the lake connecting the camp to our challenge courses and hiking trails is complete.

Kayaks

The addition of kayaks has made it possible for guests to enjoy the lake from a quieter and more relaxing vantage point.

Landscaping

Landscaping around the playing courts and shoreline is complete and includes grass, trees, and flowers with the addition of a beautiful walking path around the property. Landscaping will continue in 2009
